Canara Engineering College,  
Benjanapadav.

To,

Principal  
Canara Engineering College  
Benjanapadav

Through,

Dean  
Administration  
Canara Engineering College  
Benjanapadav

Respected Sir,

Sub: Request for Approval – HT Line Shifting from college Main Gate and hostel premises to outside the campus

This is to inform you that an HT line is currently passing **inside our main gate**, through which **students regularly enter and exit the premises**. A slight sag in the HT line has also been observed. This poses a serious safety risk to the students and staff. When this issue was discussed with the MESCOM officials, they suggested fixing a pole near the main gate. However, this arrangement would affect the appearance of the main gate and is not considered a safe or suitable solution considering the continuous movement of students in the area.

Therefore, the matter regarding shifting of the HT line was discussed with Mr. Seetharam. He inspected the site and has provided an estimation for carrying out the HT line shifting work. In view of the above and in the interest of **student safety**, I kindly request you to grant approval for the proposed HT line shifting work.

Thanking you,

Yours Sincerely

*P. Tellis*
