Subject: Request for replacement/repair of air pipe in Sewage Treatment Plant (STP)

Respected Sir,

This is to bring to your kind notice that one of the air pipes connected from the blower line to the **collection tank** in the Sewage Treatment Plant (STP) has become corroded and damaged due to prolonged service conditions.

As an immediate temporary measure, the damaged pipe connection was isolated, and the flange was closed using an end cap to prevent further air leakage. At present, the blower system is operating normally with this temporary arrangement.

However, since the pipe has deteriorated due to corrosion, it is requested that the same be inspected and necessary action be taken to ensure the continued efficient operation of the STP system.

This is submitted for your kind consideration and necessary action.

Thanking you.
