Subject: Request for Approval to Disconnect NOx (AdBlue) System in Fleet Buses

Respected Sir,

I kindly request your approval to disconnect the NOx (AdBlue) system in our fleet buses.

We have been experiencing frequent issues with the AdBlue system, particularly during the rainy season. The AdBlue pump and NOx sensors are prone to repeated failures, resulting in frequent breakdowns, increased maintenance costs, and disruption to our daily transport operations.

Disconnecting the NOx (AdBlue) system will help reduce recurring repair expenses related to the AdBlue pump, Nozzle, sensors and pickup problems improve the reliability of our buses during the monsoon season, and minimize vehicle downtime.

The estimated cost for disconnecting the NOx (AdBlue) system is **₹15,000 per bus**.

In view of the above, I kindly request your approval to proceed with the modification so that we can reduce maintenance costs and ensure uninterrupted operation of our fleet buses.

Thank you for your consideration. I look forward to your favorable approval.

Yours faithfully,

Sunil Lobo
