Respected Sir,

Subject: Approval Request for AC Indoor Unit Replacement and Outdoor Unit Shifting

The AC unit installed in the Centralized UPS Room is currently not functioning. A service technician was called to inspect the unit, and after checking, he advised that repair of the existing indoor unit is not advisable. Therefore, replacement of the indoor unit is recommended.

Additionally, the UPS cable from the Silver Jubilee Block is now entering the UPS room near the existing AC outdoor unit. Hence, the outdoor unit needs to be shifted slightly to provide sufficient clearance and avoid obstruction to the cable entry.

In view of the above, I kindly request your approval for:

1. Replacement of the existing AC indoor unit. (RS 14500)
2. Shifting of the existing AC outdoor unit to facilitate the Silver Jubilee Block UPS cable entry (RS 4760)

Total cost -19260/-

Thank you.

Yours faithfully,

forwarded for further approval
Andherson
